

Regulatory Committee

**Monday, 8 June 2009 6.30 p.m.
Council Chamber, Runcorn Town Hall**

Chief Executive

COMMITTEE MEMBERSHIP

Councillor Ged Philbin (Chairman)
Councillor Pamela Wallace (Vice-Chairman)
Councillor Bob Bryant
Councillor Philip Drakeley
Councillor Harry Howard
Councillor Diane Inch
Councillor Alan Lowe
Councillor Peter Murray
Councillor Ernest Ratcliffe
Councillor Kevan Wainwright
Councillor Mike Wharton

*Please contact Caroline Halpin on 0151 471 7394 or e-mail caroline.halpin@halton.gov.uk for further information.
The next meeting of the Committee is on Monday, 15 June 2009*

**ITEMS TO BE DEALT WITH
IN THE PRESENCE OF THE PRESS AND PUBLIC**

Part I

Item No.	Page No.
1. MINUTES	
2. DECLARATION OF INTEREST	
Members are reminded of their responsibility to declare any personal or personal and prejudicial interest which they have in any item of business on the agenda, no later than when that item is reached and (subject to certain exceptions in the Code of Conduct for Members) to leave the meeting prior to discussion and voting on the item.	
3. APPLICATION FOR A PREMISES LICENCE ON LAND AT DARES BURY	1 - 35

In accordance with the Health and Safety at Work Act the Council is required to notify those attending meetings of the fire evacuation procedures. A copy has previously been circulated to Members and instructions are located in all rooms within the Civic block.

REPORT:	Regulatory Committee
DATE:	8th June 2009
REPORTING OFFICER:	Chief Executive
SUBJECT:	Application for a premises licence on land at Daresbury
WARDS:	Daresbury

1. PURPOSE OF REPORT

To provide relevant information for the holding of a hearing to assess relevant representations made in response to an application by C.I. (Events) Limited for a premises licence in respect of land at Daresbury.

2. RECOMMENDATION: That the Committee consider the relevant representations and determine the application in accordance with the options available to it (as listed in section 7 to this Agenda)

3. SUPPORTING INFORMATION

- 3.1** The application has been made under section 17 Licensing Act 2003 ("the 2003 Act").
- 3.2** This hearing is held in accordance with the 2003 Act and the Licensing Act 2003 (Hearings) Regulations 2005.
- 3.3** The procedure to be followed has been circulated to all parties and will be repeated at the beginning of the hearing.
- 3.4** The hearing is solely concerned with those aspects of the application, which have been the subject of relevant representations as defined in the 2003 Act.

4 THE APPLICATION

4.1 The applicant

- 4.2** The applicant is (as last year) C.I. (Events) Limited. The proposed premises supervisor, Carl Burleigh, is also the same as last year.

4.3 The site

- 4.4** The application relates to farmland at the Daresbury Estate and Holly Hedge Farm. It is described on the application form as: "Land to the east of Chester Road, comprising mainly of fields 6842, 9238, 8868, 0064, 5821, 8620, 5106, 8205, 3707, 4724, 1400 which are shown on the

accompanying site plan.” The application site comprises a larger area than in previous years. The plan submitted with the application shows the extent of the application and a plan will be available at the hearing.

4.5 Part of the application site is within the Borough of Warrington. In these cases the 2003 Act directs that the licensing authority within whose area the majority of the site is situated is the relevant licensing authority for the purposes of receiving and determining the application.

4.6 Description of the Application

4.7 The Application was received by the Council on 22nd April 2009. Press and site notices were published on 23rd April 2009. Some confusion may have been caused by the publication of additional notices containing different dates. This arose from the applicant submitting an earlier application that was subsequently withdrawn. However, the date by which representations could be made was correctly stated in a published notice as being no later than 20th May 2009.

4.8 The application states that the applicant wishes the premises licence to start on 28th August 2009.

4.9 Unlike previous applications, the current application is not limited to a single event. The application is for a permanent premises licence.

4.10 The application is stated to be in respect of “a 2 day music festival with camping and consisting of multiple stages and tented arenas. Separate tented structures selling alcohol, soft drink, food and merchandise will be located in the site as well as funfair attractions. There will be a separate fenced off area for camping”

4.11 Although this part of the application refers to “a” two day music festival it is clear that it is in respect of a series of two day music festivals, the first one commencing on Saturday 28th August 2009.

4.12 Furthermore, the application does not state that the proposed two day music festivals are intended to be limited to August Bank Holiday weekends. The application, as submitted, could allow a two day music festival every weekend during the year. However, the applicant has confirmed that this was not their intention and that the premises licence, if granted, would be limited to August Bank Holiday Weekends.

4.13 The application states that the proposed music festivals are intended to take place over two days: Saturdays and Sundays. However, it should be noted that two elements of the application involve a third day namely Mondays. These are, first, late night refreshment (as to which see below) and secondly, hours premises are open to the public (as to which see below).

4.14 The number of people expected to attend the proposed music festivals is stated to not exceed 29,999 (The 2008 figure was 39,999 and the 2007 figure was 49,999).

4.15 Note that the Licensing Authority is only concerned with those matters which constitute licensable activities.

4.16 Description of Licensable Activities

4.17 Films

4.18 Films are requested to be shown in one of the tented arenas between **1400** on Saturdays and **0400** on Sundays and then from **1000** on Sundays until **2300** on Sundays.

4.19 Live Music

4.20 There is intended to be one main outdoor stage that will have bands performing with amplified music. The application is that this stage will close at **2300** each night. There would be smaller performance stages within tented arenas that would have bands performing with amplified music. The hours requested are between **1400** on Saturdays and **0400** on Sundays and then from **1000** on Sundays until **2300** on Sundays (provided as stated above that the use of the main outdoor stage for live music shall cease at 2300 on Saturdays).

4.21 Recorded Music

4.22 The hours requested for recorded music are between **1400** on Saturdays and **0400** on Sundays and then from **1000** on Sundays until **2300** on Sundays. Recorded music will be played on all stages between the bands and full performances by DJ's.

4.23 Performance of dance

4.24 The hours requested for performance of dance are between **1400** on Saturdays and **0400** on Sundays and then from **1000** on Sundays until **2300** on Sundays. Dancers will appear with some bands performing at the event.

4.25 Provision of facilities for dancing

4.26 The hours requested for provision of facilities for dancing are between **1400** on Saturdays and **0400** on Sundays and then from **1000** on Sundays until **2300** on Sundays. People will be able to dance across the whole site should they wish to do so.

4.27 Late night refreshment

4.28 The hours requested for provision of late night refreshment are between **2300** on Saturdays and **0500** on Sundays August and then from **2300** Sundays until **0500** on Mondays. Food vendors will be operating throughout the site & camp sites.

4.29 Supply of alcohol

4.30 The hours requested for the supply of alcohol are between **1400** on Saturdays and **0430** on Sundays and then from **1000** Sundays until **2330** on Sundays.

4.31 Hours premises are open to the public

4.32 The application is for the premises to be open to the public between **0900** on Saturdays and **1400** on Mondays.

5 RELEVANT REPRESENTATIONS

5.1 RESPONSIBLE AUTHORITIES

CHESHIRE CONSTABULARY

The Police object to the grant of an open-ended premises licence but would not object to the grant of a premises licence limited to the August bank holiday weekend of 2009 subject to a number of conditions. Details are set out in **Appendix 1**.

HALTON BOROUGH COUNCIL

Halton Borough Council in its various capacities as responsible authority objects to the application for a permanent premises licence. However, the Licensing Authority is recommended to grant a premises licence for a single event and to attach to it a number of conditions relating to noise and health and safety matters. Details are set out in **Appendix 2**.

WARRINGTON BOROUGH COUNCIL

Warrington Borough Council is entitled to make representations as a 'responsible authority' as defined in section 13(4) Licensing Act 2003. Warrington Borough Council could write in one or more of the following capacities:

- Health & Safety Enforcing Authority – section 12(4)(c)
- Local Planning Authority – section 12(4)(d)
- Environmental Health Authority – section 12(4)(e)
- Licensing Authority in whose area part of the premises is situated – section 12(4)(g).

Warrington Borough Council objects to the grant of a premises licence. Details are set out in **Appendix 3**.

5.2 INTERESTED PARTIES

Representations have been received from **148** interested parties. A further **12** representations were made by persons outside of the vicinity of the site. **One** representation was received which contained no address. The vicinity of the site has been determined to be the area enclosed within a radius of 1.5 miles from the site (or just over 7 square miles). The 12 persons who have submitted representations from outside the vicinity of the premises together with the person who did not provide an address are not considered to be interested parties.

The representations have been placed on the application file and copies have been forwarded to the applicant and to members of the Committee.

Only relevant representations will be taken into account by the Committee. The Committee will determine what constitutes a relevant representation from an interested party.

Where a representation contains both relevant and irrelevant material only the relevant elements of the representation will be taken into account.

In some cases no evidence/information has been put forward to substantiate the reasons expressed and in some cases objections have been raised which are not related to the licensing objectives (for example, traffic congestion or impact on property sales) or not directly related to the premises which are the subject of the application.

A number of representations object to a permanent licence rather than a temporary licence.

On previous applications relating to the Creamfields festivals the agenda item has included a summary of each of the representations received. However, in view of comments made about the inability of summaries to convey the full nature of the representations, no attempt has been made to repeat this exercise on this occasion.

It is not practical to include the text relevant representations within this agenda: but they are background documents which will be considered by the Committee.

Details of interested parties who have made relevant representations are set out at **Appendix 4** (which also identifies the 12 persons referred to above).

6 OPTIONS

6.1 The Committee has the following options:

- Grant the application
- Grant subject to conditions
- Reject the application.

6.2 The Committee must act with a view to promoting the licensing objectives, namely:

- (a) the prevention of crime and disorder;
- (b) public safety;
- (c) the prevention of public nuisance; and
- (d) the protection of children from harm.

The Committee must also have regard to-

- (a) the Council's Statement of Licensing Policy, and
- (b) the Statutory Guidance issued by the Secretary of State.

7 IMPLICATIONS FOR THE COUNCILS PRIORITIES

7.1 Children and Young People in Halton

HALTON COUNCIL

Representation Form.

Responsible Authority.

POLICE

Your Name	Ian Seville
Job Title	Police Licensing Officer
Postal and email address	Widnes Police Station, Kingsway, Widnes. WA8 7QJ <i>ian.seville@cheshire.pnn.police.uk</i>
Contact telephone number	01244 613771

Name of the premises you are making a representation about.	Creamfields 2009
Address of the premises you are making a representation about.	Land to the east of Chester Road, as per site plan.

Which of the four licensing Objectives does your representation relate to? Please state yes or no.	Yes Or No	Please detail the evidence supporting your representation. Or the reason for your representation. Please use separate sheets if necessary
The Prevention of harm to children	Yes	See below
To prevent Public Nuisance	Yes	See below
To prevent crime and disorder	Yes	See below
Public Safety	Yes	See below

<p>Suggested conditions that could be added to the licence to remedy your representation or other suggestions you would like the Licensing Sub Committee to take into account. Please use separate sheets where necessary and refer to checklist.</p>	<p>See attached sheet</p>
---	---------------------------

COMMENTS:

There are some fundamental objections to the licence *per se*, these are as follows;

1. To date no official request for Special Police Services has been requested from the Event Organizers. This has a significant impact on the planning for the event, specifically how the event could achieve the four licensing objectives set out above. In addition, the policing of the event will be a critical factor in assisting public safety by;
 - Prevention and detection of crime, and
 - Bringing offenders to justice

2. To date no Security Deployment Schedule and Information has been received by the Police. Therefore there are no visible proposals outlining the roles and responsibilities of security and stewards during the event.

3. At this time only preliminary discussions have taken place between the Police and Event organisers and as a result there are no agreed protocols in place, specifically in relation to;
 - Costing,
 - Responsibilities, and
 - Resources

Owing to the fundamental objections raised at 1, 2 & 3 above the Police object to the licence at this time as there is a lack of visibility as to how the Event Organiser will fulfil their responsibility to achieve the four key licensing objectives;

- The protection of children from harm
- The prevention of public nuisance
- The prevention of crime and disorder
- Public safety

Given that the above issues are resolved and in respect of the application being made for a permanent licence:-

1. The application as it stands would allow for any number of events to be staged at any time during the year. This is obviously not a situation that can be contemplated, irrespective of whether this was the organizer's intentions or not. To limit the event to the time and duration that it presently covers:

Condition,

The events shall be restricted to one event per calendar year, to take place on the Saturday, Sunday and Monday of the August Bank Holiday weekend.

2. The applicant's wish for an amount of fluidity within the scope of the area designated by the application is understood. However, there is a substantial amount of Police contingency planning that requires forward notice of how such a large event is to proceed. Therefore, should a permanent licence be granted:

Condition,

There shall be and C.I. (Events) Ltd. shall be responsible for;

- **A review of concerns of the community in relation to public nuisance on an annual basis,**
- **A review of crime and disorder on an annual basis,**
- **6 months prior to the event written notification shall be sent to the Local Authority and the Police informing them of the intention to hold an event,**
- **3 months prior to the event a draft Event Management Plan and site maps shall be submitted to both the local authority and police.**
- **Review of event management and security plan shall take place on an annual basis with the Multi-Agency Planning Group.**

3. There are also serious concerns as to what may happen should C.I. (Events) Ltd., discontinue these events, for any commercial or other reason, and simply transfer the Premises Licence to another operator. Given the scale of this event, the power to object to a transfer under Section 42(6) of the Licensing Act 2003 would not afford sufficient safeguards. Therefore:

Condition,

In the event of C.I. (Events) Ltd., discontinuing the use of this Premises Licence, the Premises Licence must be surrendered.

These Representations are in respect of this application and we seek that these to be included irrespective of whether the Premises licence is granted on a permanent or time restricted basis.

1. Proof of Age still remains of paramount importance, both for admittance to the event and for the legitimate sale of alcohol. The method of operation for this scheme will remain the same as last year and is detailed in Annexe 1, which will form part of the Condition.

Condition:

The Challenge 21 Proof of Age Scheme shall be adopted as a Condition of entry. A tent or other structure shall be provided, immediately adjacent to the entry gates, where checks can be carried out by event and police staff.

The operating procedures are set out in Annexe 1 of this Form and constitute part of this Condition.

2. It still remains an essential that the integrity of the perimeter be secured. Therefore,

Condition:

All Public Footpaths running across the site must be closed for the duration of the licence, and suitable alternative routes to be identified and displayed.

3. There is been an increasing benefit in the use of CCTV and continued and improved use of this facet is of paramount importance. Last year's event proved that this is to the benefit of all responsible authorities and the organizers and Cheshire Constabulary will seek to maintain the support and advice of its CCTV specialist staff in support of the overall event. Therefore:

Condition:

All CCTV must comply with the recommendations of the Multi-Agency Planning team, and in any event shall not fall below the provisions employed at the 2008 event without prior Police agreement.

4. The final 'Safety Sign Off' time will continue to be critical for all Responsible Authorities. This is a crucial point and previous experience has shown that any delay to this time causes an unacceptable delay throughout the remainder of the timetable. This culminates in a delay in making the site available for occupation at the stated time and causes a serious risk of crushing within the crowds.

Condition:

There will be a final sign-off time, suitable to and set by all Responsible Authorities. This will be set by a meeting with the organizers and Responsible authorities,

5. The schedule refers to stewards/security staff that are to be deployed throughout the event. Prior knowledge of these numbers and their areas of deployment are crucial to the overall event planning. To date, no such numbers have been set by the organizers. Hence,

Condition:

The numbers of SIA registered staff and stewards and their deployment areas and times of duty shall be set by the Multi-Agency Planning Team and shall not fall below the provisions employed at the 2008 event without Police agreement.

7. It is further required that the organisers continue to work with both the Police and the SIA to establish which roles on the site require SIA accreditation, as opposed to Stewarding duties. Therefore,

Condition:

An appointed representative from the organisers shall attend meetings arranged between the Police and the S.I.A.

8. It is vital to ensure that lines of command are maintained at all levels, up to and including Gold Command. This is crucial in ensuring that any eleventh hour changes are communicated throughout the whole range of staff involved at all levels. Therefore:

Condition:

Members of the Senior Management of the organizers shall attend Adversarial Briefings with senior Police staff when arranged prior to the event.

9. The Event Management Plan makes mention of the removal of alcohol, weapons, glass and prohibited articles on entrance to the site but fails to mention specifically the removal of unlawfully possessed drugs. It is key in the prevention of crime and disorder and public nuisance that controlling the misuse of drugs is dealt with specifically.

Condition:

The event organisers recognise their responsibility towards the removal of unlawfully possessed drugs from festival attendees and make specific mention of this in their Event Management Plan.

All other steps offered are welcome and acceptable to the Police and will assist in promoting all four objectives of the Act.

Signed: Ian Seville.

Date: 20th May 2009

(Annexe to General Condition 1)

Creamfields – Challenge 21

This document sets out the procedure that will be used for enforcing Challenge 21 policy whereby persons who appear to be under the age of 21 are challenged to produce ID to prove their age.

Persons who are challenged as they look under the age of 21 but who can prove they are over the age of 18 will be issued with a plastic, non-transferable wristband which they can wear throughout the event.

Operating Procedure

1. The event is promoted for 18s and over on all literature.
2. All event goers are urged to bring ID with them.
3. At the event entrances the Terms and Conditions state that only 18's and over may enter.
4. By each of the event entrances, staff will be identifying people who appear under the age of 21 and will advise them that they need to show ID proving their age so that they can enter the show. Upon showing their ID to the Challenge 21 member of staff, the customer will receive a wristband directly from that member of staff and will be able to proceed into the event. The wristband will show the bar staff that they are of legal age to purchase alcohol.
5. If someone is denied entry on the grounds of appearing under 21 without having ID to prove otherwise they will have their ticket confiscated and be advised they will not be allowed into the show.
6. If this person is under the age of 16 they will be escorted to a Welfare Facility from where their parents can be called to advise them that their child is at the event and needs collecting.
7. All staff will be briefed to continually look out for persons who appear to be under the age of 21.
8. If someone appears to be under the age of 21 and **does** have ID on them, they will be allowed into the event having first been advised of the principles of Challenge 21. They will be advised to always carry ID with them for future events and they will be issued with a coloured plastic, non-transferable wristband that they can produce when purchasing alcohol.

9. At each bar there will be signs and Challenge 21 literature explaining the need for ID if you look under 21.
10. Each Bar Manager will brief staff before the event starts about the Guidelines of Challenge 21 and the rules that are being implemented at the event.
11. All Security at each bar area will also be briefed to prevent those looking under the age of 21 who do not have a wristband from entering into the bar queuing lanes.

APPENDIX 2

Representations made by Halton Borough Council Environmental Health, Building Control & Enforcement Division Halton Borough Council Environmental Health Building Control & Enforcement Division

Representation in respect of the licensing an application by C.I. (Events) Limited for premises licence in respect of land at Daresbury.

1.0 Introduction

1.1 The division has considered the application in respect of the prevention of public nuisance and public safety.

1.2 In consideration of the application and the elements that fall within the remit of the division, the division make representations in two areas namely disturbance from noise and health and safety issues. In both areas the division is recommending that conditions be placed on the license that will mitigate public nuisance and protect public safety.

1.3 The application as submitted for consideration is for a permanent license for the eleven fields in the application, for a two day music festival over any Saturday and Sunday in any of the fields referred to in the application. It has since been confirmed by the applicant that it is not their intention to hold a music festival every week. It would be their intention to hold a two day music festival annually on the August Bank Holiday weekend.

1.4 On the basis of the supporting information which refers to a Creamfields event on the 29th and the 30th August 2009 it has not been possible to evaluate how the applicant intends to control the impact on the community from potentially unlimited events within the area applied for

1.5 A key to promoting the licensing objectives is the detailed preplanning by all parties which is fundamental to effective regulatory control. The granting of any license for more than one year would limit the control regulatory authorities have over the operation of the event.

1.6 For the reasons outlined below the division, do not feel it is appropriate to grant a permanent licence and object to the open ended licence applied for.

1.7 The division acknowledges however that in previous years the event has been successfully managed to control public nuisance and our evaluation is that with a broadly similar configuration and operating plan for this year as for last year the applicant is adequately addressing potential noise nuisance.

1.8 The division have recommended a number of conditions to promote the licensing objectives foremost of which is that the license is granted for an event on the 29th and 30th of August 2009 in accordance with the event management plan submitted for that event.

2.0 Disturbance from noise and potential public nuisance

- 2.2 During the two day event in 2008 staff from the Council's Environmental Health Team monitored noise levels to ascertain compliance with license conditions pertaining to noise. The measured levels, taken outside residents homes were within the Code of Practice on Environmental Noise Control at Pop Concerts, and it was considered that the conditions adequately controlled the noise given the nature of the event.
- 2.3 This year the event will remain substantially the same as in 2008 running from 9:00 on Saturday the 29th of August when the car parks and campsite open through until 14:00 hours on Monday the 31st of August when the campsites and car parks close. Licensable events will be taking place from 14:00 hours until 04:30 hours on the Saturday, and from 12:00 hours to 23:30 hours on the Sunday. Electronic music events or dance events are characteristically held late in the evening and into the morning. It must therefore be recognised that an event with this nature entertainment must have entertainment which continues well into the morning.
- 2.4 .For a one off event like this there is no nationally set absolute standard to be applied. Ultimately, there is always a matter of judgment in a continuum between mildly irritating activities to something which is intolerable. It is a matter of evaluating how the operation and management of the event by the applicant will meet the licensing objective. The test is objective rather than subjective and involves consideration of a number of factors such as:
- Location
 - Time
 - Duration
 - Frequency
 - Convention
 - Importance and value to the community of activity
 - Difficulty in avoiding external effects of activity
- 2.5 In exercising this judgement officers can call upon various guidance documents on the impact of noise and have the advantage here of 3 years experience of how the noise was managed from the site and what issues arose
- 2.6 The application does not state that it is only for the August Bank Holiday weekend of 2009 and is "open ended". If granted as applied for there is potential for an unlimited number of events to be held over any weekend of the year in any of the fields on the application. What may be acceptable and tolerable for a one off event per annum, a number of events per annum could have a disproportionate and unreasonable impact on the local community and environment. Numerous events would also be difficult to effectively regulate demanding disproportionate input of resources to the benefits gained. It has since been confirmed by the applicant that it is not their intention to hold a music festival every week. It would be their intention to hold a two day music festival annually on the August Bank Holiday weekend. If this intention is conditioned it addresses this issue.
- 2.7 The applicant has submitted an event operating plan for Creamfields 2009 from the 29th to the 30th of August. This outlines the times of music events, the siting and internal layout of the event arena and there proximity to noise

sensitive dwellings, the nature of the music events, and how the event will be managed. This allows an adequate evaluation of this years event.

- 2.8 There is no such operating plan for subsequent years even though this is applied for. The department have no information about the nature, extent and timing, duration of any future music events, the siting within the application boundary applied for and the layout of the licensable activities in any particular area or how any future event would be operated and managed through an event operating plan.
- 2.9 In the absence of such detail it is not possible to evaluate how the applicant intends to address the licensing objectives and the regulatory input needed to control future events
- 2.10 A significant factor in any evaluation of an event is the configuration within the application site and the impact this has on the safety of event users and the attenuation of noise impacting on the local community.
- 2.11 Whilst the plan supplied with the application indicates the four fields in which licensable activities will “mainly” take place based upon the event planned for 2009 the application boundary includes a total of eleven fields. If granted on this basis it would leave the applicant free to use any part of the site for licensable activities in any configuration in future years. It is not possible to evaluate to what extent public nuisance or public safety will be compromised for subsequent events without knowledge of the proposed configuration and use of the eleven fields.

Conclusions

- 2.12 After careful consideration of the detail for the event proposed for the 29th and 30th of August officers have come to the following conclusions:
- 2.13 On the basis of the supporting information which refers to a Creamfields event on the 29th and the 30th August 2009 it has not been possible to evaluate how the applicant intends to control the impact on the community from potentially unlimited events within the area applied for.
 - 2.13.1 The division do not feel it is appropriate to grant a permanent licence and object to the open ended licence applied for.
 - 2.13.2 The licensable activities namely films, live music, recorded music, performance of dance and the supply of alcohol are confined to fields labelled 9238, 6842, 0064 and 8868
 - 2.13.3 The granting of any license for more than one year would limit the control regulatory authorities have over the operation of the event.
 - 2.13.4 The division acknowledges however that in previous years the event has been successfully managed to control public nuisance and our evaluation is that with a broadly similar configuration and operating plan for this year as for last year the applicant is adequately addressing potential noise nuisance.
 - 2.13.5 The division can recommend a number of conditions to promote the licensing objective of public nuisance and public safety foremost of which is that the license is granted for an event on the 29th and 30th of August 2009 in accordance with the event management plan submitted for that event.

Recommended Conditions

2.9 To safeguard the community and to promote the objective of preventing public nuisance the Division would request that the following conditions be placed on the licence:

- A. The license is granted for a Creamfields event to take place on the 29th and 30th August 2009 in accordance with the event operating plan headed Creamfields 2009 Daresbury Estate, Halton Cheshire .29th to 30th August 2009 submitted with the application.
- B. All activities, structures, stages and facilities shall be positioned in the fields numbered 9238, 6842, 0064 and 8868 and sited in the position indicated in the plan submitted with this application dated 14/04/2009. No changes shall be made to this indicative siting without prior permission in writing from the Operational Director (Environment & Regulatory Services) or the Divisional Manager (Environmental Health, Building Control& Enforcement).
- C. The licensable activities, with the exception of late night refreshment, applied for namely films, live music ,recorded music , performance of dance, dancing and the supply of alcohol shall be restricted to the areas indicated in the plan dated 14/04/2009 namely fields labelled 9238, 6842, 0064 and 8868
- D. The licensee shall appoint a suitably qualified and experienced Noise Control Consultant who shall be required to advise the Licensee on managing noise generated during the licensed events and to liaise with all relevant parties i.e. the Licensee, the Environmental Health officers of Halton Borough Council and Warrington Borough Council, Event Promoters, sound system suppliers, sound engineers and performers prior to and during the licensed event.
- E. The Music Noise Level (MNL) shall not exceed 65dB LAeq (15 min) 1 metre from the façade of any noise sensitive premises prior to 23:00 hours.
- F. After 23:00 hours music noise levels 10m from the mixer desk in each marquee including any concessionary (marquees) shall not exceed 95dB LAeq (15 min).
- G. The sound systems associated with each ride on the fairground shall not be operated after 23:00 hours
- H. Music noise levels from the main stage shall not exceed 98dB LAeq(15 min) at a position 40 metres from the main speakers.
- I. The use of main stage shall finish at 23:00 hours.
- J. The licence holder shall ensure that the appointed Noise Control Consultant shall regularly undertake tests of noise levels at the sound mixer positions to ensure compliance with the Licence conditions. A written record of these assessments shall be kept and available to any Environmental Health Officer appointed or authorised by the Environmental Health, Building Control& Enforcement Division of Halton Borough Council upon request. This shall include any remedial action taken.
- K. The licence holder shall ensure that the appointed Noise Consultant shall carry out one or more noise propagation tests prior to the event. During the test, the sound system shall be configured and operated in a similar manner as that intended for the licensed events and shall utilize a sound source as similar as possible to that intended to be used during the licensed events. Any such test shall be carried out between 11:00 and 16:00 hours on the day prior to the event and after 10:00 hours on each day of the event. Halton Borough Council's Environmental Health Officers shall be informed of the tests at least one hour prior to commencement.
- L. The licence holder shall submit a noise management plan to the Divisional Manager (Environmental Health, Building Control& Enforcement) no later than 28 days before the commencement of the event.

- M. There shall be no construction of the set or any other structure associated with the event within the hours of 20.00 – 08.00 unless otherwise agreed in writing by the Divisional Manager (Environmental Health, Building Control & Enforcement).
- N. If, in the opinion of the Environmental Health Officer appointed or authorised by the Environmental Health, Building Control & Enforcement Division of Halton Borough Council or the Noise Control Consultant appointed in accordance with Condition B, that the noise levels become unacceptable and a significant disturbance is being, or is likely to be caused during the operation of the licence, and notwithstanding compliance with any other noise condition, the Licence holder shall take appropriate steps to avoid or abate any such disturbance as directed by such Environmental Health Officer or the appointed Noise Control Consultant .
- O. The Licensee shall ensure that the any sound system supplier, sound engineer, sound equipment operator or performer is informed of these noise conditions of licence and that they will be required to comply with any instructions given to them by the Licensee or the Licensees Noise Control Consultant.

3.0 Health and Safety Issues and the public safety objective

3.1 Officers from the Environmental Health, Building Control & Enforcement Division of Halton BC will, with regards to health and safety, be observing their statutory powers in accordance with the Health & Safety at Work Act 1974. It is with this remit that the division makes representations as the responsible authority in this area. The public safety objective is concerned with the physical safety of the people attending the event and partaking in the facilities.

3.2 Licensing authorities should only impose conditions which are necessary and proportionate for the promotion for the licensing objectives. If other existing law already places certain statutory responsibilities on an employer or operator of premises, it cannot be necessary to impose the same or similar duties. The organizers of this event have a responsibility under the Health & Safety at Work Act 1974. Overall and final responsibility for health and safety at Creamfields rests with the event manager. The event in 2008 did not result in any major contravention of the health & safety or food safety legislation. As in previous years the applicant has appointed an emergency management company which specialises in event safety management. The licensing Act does not affect the continued use of inspection and enforcement powers conferred by other legislation and officers will satisfy themselves that the health and safety responsibilities are adhered to.

Recommended Conditions

3.3 Notwithstanding this Division would request that the following conditions be placed on the licence to promote the licensing objectives of promoting public safety and to ensure that adequate monitoring can be carried out:

- I. All stage and tower structures shall be supplied by competent contractors who shall issue full structural plans and calculations to Halton's Borough Council Building Control Manager.
- II. The Licence holder shall ensure that a nominated council representative the Environmental Health Manager (Food and Health & Safety), the Divisional

Manager (Environmental Health, Building Control& Enforcement) or the Principal Environmental Health Officer (Food Safety, Health & Safety) is kept informed of the progress of the notified at key stages, namely (i) of designated contractors on site to prepare for the event, (ii) start of event set up, (iii) final safety checks prior to opening, (iv) at any other key stages in the executing and operating of the event.

- III. The Licence holder shall furnish the Environmental Health Manager (Food Health & Safety), the Divisional Manager (Environmental Health, Building Control& Enforcement) or the Principal Environmental Health Officer (Food, Health & Safety) with a list of
 - all contractors who will be operating at the event at the earliest available time but within a minimum of 48 hours prior to the opening of the event to the public.
 - the names and addresses of all authorised food vendors and any sub contractor vendors including those catering for site crew, artists, performers, technical crews etc, present onsite prior to, during and after the Festival together with the nature of their operation at the earliest available time but within a minimum of 10 working days prior to the opening of the event to the public.
 - Details of each proposed "Food Market Area" including location and name and address of individual traders at the earliest available time but within a minimum of 10 working days prior to the opening of the event to the public.
 - the Licensee shall ensure that all traders are reminded of the need to comply with current Food Hygiene and Food Safety Legislation.
- IV. The Licence holder shall furnish the Environmental Health Manager (Food Health & Safety), the Divisional Manager (Environmental Health, Building Control& Enforcement) or the Principal Environmental Health Officer (Food, Health & Safety) with details of any vendors proposing to offer acupuncture, tattooing semi permanent skin-colouring, cosmetic piercing and electrolysis on the licensed site. The license holder shall not permit such activities from stalls or by vendors who have not been registered with the council and comply with the Local Government (Miscellaneous Provisions) Act 1982 Part VIII.
- V. Any subsequent changes must be notified to the Licensing Authority by telephone and confirmed in writing as soon as possible thereafter.
- VI. A representative of Halton Council's Environmental Health, Building Control& Enforcement Division shall be advised in reasonable time when the main arena is deemed by the Licence holder to be ready to be opened to the public.
- VII. The Licence holder shall advise the Environmental Health Manager (Food and Health & Safety), the Divisional Manager (Environmental Health, Building Control& Enforcement) or the Principal Environmental Health Officer (Food Safety, Health & Safety) a minimum of 48 hours prior to the event opening to the public, all activities to be carried out by sponsors with particular attention to those involving public participation.
- VIII. The Licence holder shall ensure the Environmental Health Manager (Food and Health & Safety), the Divisional Manager (Environmental Health, Building Control& Enforcement) or the Principal Environmental Health Officer (Food Safety, Health & Safety) shall always have an up to date copy of the event risk assessment.
- IX. The event shall be managed and operated in accordance with the Health & Safety policy and procedures statement included in the application. The Division shall be kept informed by the Licence holder of all key activities

relating to public safety. In particular, any activities that require specific individual risk assessments to ensure safe operation such as the use of lasers, strobes, pyrotechnics, bomb tanks, smoke machines and fireworks etc must be reported to the division with suitable supporting evidence within reasonable time, prior to the event.

APPENDIX 3

REPRESENTATIONS MADE BY WARRINGTON BOROUGH COUNCIL

Re: **Proposed Creamfields event 2009**

Warrington Borough Council makes representation against the application made by C I (Events) Ltd for a premises licence for the land to the East of Chester Road comprising mainly of fields 6842, 9238, 8868, 0064, 5821, 8620, 5106, 8205, 3707, 4724, 1400. and are shown on the plan accompanying the application as a site edged in red.

The basis of the Councils representation is submitted to Halton Borough Council on the following grounds.

PREVENTION OF PUBLIC NUISANCE.

The Creamfields event causes disturbance to the residents of Warrington by way of noise from the music.

The application submitted is for consideration of granting a permanent licence for the eleven fields in the application, for a two day music festival over any Saturday and Sunday in any of the fields referred to in the application.

Warrington Borough Council object to the application, there have been many changes in the size and layout of the site over the past four years. The granting of any licence for more than one year would limit the control regulatory authorities have over the operation of the event.

In addition as the licence does not state that it is for the August Bank Holiday weekend, there is potential for an unlimited number of events to be held over any weekend of the year in any of the fields on the application.

We recognise the efforts made by Halton Borough Council and the event organisers over the past three years, but given the experiences last year, we do not feel it is appropriate to grant a permanent licence. The continuation with the annual applications ensures that we work together to ensure that the concerns of residents and event goers are appropriately considered annually.

I would ask that Halton Borough Council also considers the content of the attached report from Warrington Borough Council Environmental Health Unit.

Yours faithfully

Jan Souness Head of Service Chief Executive's Unit

Town Hall Sankey Warrington WA1 1UH

REPORT OF WARRINGTON BOROUGH COUNCILS PRINCIPAL ENVIRONMENTAL HEALTH OFFICER ON THE CREAMFIELDS PREMESIS LICENSE APPLICATION 2009

CI Events Ltd have organised a music event on the Warrington BC, Halton BC border referred to as Creamfields, held over the August Bank Holiday, since 2006.

The layout of the arenas in 2006, 2007, and 2008 was broadly similar with the main stage at the top of field 1 facing towards Hatton. 2008 saw the introduction of camping and the event was over two days with the main stage stopping at 23.00 on both the Saturday and Sunday nights.

In 2006 and 2007 the noise from the main stage was loudest off site in Hatton and Daresbury. In 2008 the noise was loudest in the Warrington areas of Higher Walton and the Halton area of Moore, even though these were behind the main stage.

The change in the distribution of the noise off site was due to atmospheric conditions and led to what has been described as unacceptable noise levels outside resident's homes in Higher Walton.

Measured noise levels at the agreed monitoring points inside the tents and in front of the main stage were within the levels set by both Halton BC and Warrington BC, and confirmed by way of condition in the Premises Licence. When individual acts or bands exceeded the maximum level in short term measurements, the levels were reduced within the 15 minute monitoring periods, to achieve compliance. The noise levels set at the dance floor represent the lowest practicable level for an event of this kind. [There have been multiple complaints by the patrons to the operators that the levels were set too low]

At no time did the measured levels, taken outside residents homes exceed the levels within the Code of Practice on Environmental Noise Control at Pop Concerts, however, the perception was that the noise was much louder than in previous years and beyond that which residents and Officers found acceptable.

Discussion has taken place between the consultants for the event, Vanguardia, and Officers from both Halton and Warrington. This discussion included the consideration of all the monitored noise data, both inside and outside the event. The metrological conditions throughout the event were considered and an explanation for the higher off site noise levels was sought.

Despite the orientation of the site being broadly the same as 2006 and 2007 the off site noise levels were very different in different areas. In

2008 both the measures and perceived noise levels in Hatton and Daresbury were much lower than in previous years. The noise levels on the A57 and to the North of the site were subjectively much louder, but with measured levels within the curtilage of the residents homes were below the levels in the code of practice.

We are satisfied that these elevated levels in 2008 were due to meteorological effects, the effects of temperature and wind speed and vector correlate well with the increase in perceived and measured noise levels off site. [This phenomena is discussed at length and in detail by P H Parkin and W E Scholes in their 1965 paper published in the Journal of Sound and vibration] This view was confirmed with Vanguardia who had experienced similar effects at other venues during the inclement summer of 2008.

2009 Licence application.

The 2009 application from CI Events is for a reduced capacity event [29,999] and the footprint of the site has been reduced considerably. The footprint for previous years was 50% Warrington BC, 50% Halton BC. The 2009 footprint is approximately 20% Warrington BC and 80% Halton BC, the only noise generating activity in WBC is the hospitality tent.

The number of tents is reduced and the main stage is to be located in field 6842 but facing towards Higher Walton and Stockton Heath some distance away.

The application is for a continuing licence, for all of the fields marked in the application. We resist this most strongly as there have been many changes in the size and layout over the past four years. In addition the licence does not state that it is for the August Bank Holiday weekend, there is potential for an unlimited number of events over any weekend of the year in any of the fields on the application.

Consideration has been given to the setting of noise levels off site, in particular in the octave bands 63Hz and 125Hz. We do not think that this is a practical option and unenforceable in terms of a licence condition for the following reasons: If the atmospheric conditions lead to an exceedence of any limit, at the affected residence, the only option would be to reduce the music levels on the dance floor. It is accepted by both the operator and the Police that any reduction in music levels on the dance floor may lead to public order issues which will have health and safety implications. In addition, what level would be set? Current suggestions are 45dBA 1 metre from the facade of the affected property. Taking into account the low frequency octave bands, which is what people find most disturbing, it is very unlikely that a reduction of less than 5dBA would be noticed by the residents.

The Noise Action Group, [NAG] have requested Officers to consider using the powers enacted in the Noise Act 1996 to prosecute or serve a fixed penalty notice on the operators. The guidance for this Act state that it must

only be used where it is an **effective** form of noise control. In this situation exceedence of the prescribed level by 1 OdBA would trigger a £500.00 fixed penalty notice, or a prosecution which was unlikely to succeed if it was shown that the operators were conforming to the Code of Practice.

Metrological effects can not be controlled by conditions on a licence and can not be anticipated more than a few hours in advance. Working with Halton and Vanguardia we would hope to increase the off site monitoring in 2009 [should a license be granted] and establish a better system of communication OFF / ON site to avoid any confusions as to the relationship between the measured dance floor levels and the off site levels. In addition we would like to see access to the metrological data from MRL on site rather than relying on data from off site monitors some distance away.

The Code of Practice indicates for events continuing after 23.00 the music noise should not be audible within noise sensitive premises with the windows open in a typical manner for ventilation. As the disturbing element of the noise from Creamfields is the base beat, this requirement will not be met. The Code of Practice is guidance and not Statute.

Conclusion

The elevated noise levels at Warrington Residents properties in 2008 were due to metrological effects. It would not be possible to put a condition on any licence granted related to meteorological effects.

A condition setting off site noise levels as a period measurement [1 min to 15 mins] or a level in individual octave bands. It has been established that the dance floor levels are as low as practicable; to attempt to comply with this condition by the operator may lead to public order and health and safety issues.

The Noise Act 1996 is not an effective method of control in this case.

It should be noted as in previous years the operators of Creamfields can not comply with the Code of Practice after 23.00.

Philip Ramsden.
Principal Environmental Health Officer
(Customer Services) Monday 11 th May 2009.
