#### Foreword

Halton's Draft Housing Strategy 2013-18 has been prepared following a time of rapid change for all forms of housing.

The draft strategy seeks to take account of the changed economic climate, reduced public investment and legislative challenges such as Welfare Reform, the Localism Bill and changes to planning law.

Some of the housing issues in Halton include:

- Securing investment to build new homes or improve existing ones.
- Rebalancing the housing market to meet people's needs and aspirations.
- An ageing population.

To address the issues we face, we will need to continue to prioritise and innovate. The new strategy has to encourage growth if we are to realise the vision for housing in Halton.

We would welcome your comments on the strategy outlined in this document and the supporting evidence paper.

Yours sincerely,

Cllr Phil Harris

Executive Board Member for Housing Strategy.

### Previous Strategy's achievements

Halton's previous Housing Strategy (2008-2011) pre-dated the economic downturn and subsequent housing market decline. It achieved and exceeded many of the targets set for it, including:

- Successful delivery of phase 2 of the Castlefields regeneration programme, this has so far resulted in £30 million of new development replacing the last deck access dwellings remaining in the Northwest;
- Development of an additional 256 new affordable homes bringing approximately £30 million of external investment into the Borough. This includes the development of an additional extra care scheme in Halton. The outcome of further pending investment bids to the Homes and Communities Agency (HCA) are due to be reported by February, 2013;
- Since the Bond Guarantee System was introduced in 2009, 67% are ongoing, 15% ended without a claim and 18% ended with the bond being claimed;
- Crisis intervention support in the form of emergency support over the last three years has helped prevent homelessness for over 600 families;
- Clearance of all backlogs in adaptations in 200 socially rented homes;
- Development and implementation of a new Homelessness Strategy with increased emphasis on prevention which has drastically reduced levels of statutory homelessness to an all-time low;
- Since January 2010, the Housing Solutions dedicated Mortgage Rescue Adviser has provided advice to 187 households and as a result 94 cases were prevented from repossession;
- Halton Housing Trust delivered on its commitment to bring all former council housing stock up to the Decent Homes
  Standard 12 months ahead of the Government's 2010 target date. Since that time the Trust has developed a
  comprehensive neighbourhood investment programme which will see £262 million investment in the former
  Council stock between 2009 and 2015 and has built its first new affordable homes in the Borough.

#### Context

Halton's Housing Strategy has been developed in the context of a wide range of national, regional and local policies, strategies and plans as summarised in the diagram below. Further details of how these influence the Strategy can be found in the Housing Strategy evidence paper.

In particular, it is expected that the following could have a major impact upon the deliverability of the Strategy:

- Welfare Reform Act 2012 it is estimated that 1 in 5 social housing tenants will be affected by the
  underoccupancy penalty. Taken together with other reforms such as direct payments, the benefits cap and
  localisation of Council Tax benefits it is highly probable that rent arrears will increase. This will have a knock on
  effect on the ability of Registered Providers to attract finance for new housebuilding at competitive rates as well
  as impacting upon levels of homelessness.
- Affordable Housing Programme The programme will subsidise social housing development until 2015 when the current programme comes to an end. It is unclear at this stage whether grant subsidy will be available to help fund affordable housing schemes post 2015. If, as suspected, direct grant subsidy comes to an end delivery of affordable housing post 2015 is likely to pose a considerable challenge for Registered Providers, particularly in light of welfare reforms and direct benefits payments which, as highlighted above, are likely to adversely impact on Providers revenue streams and consequently their ability to attract affordable private finance.

For this reason it is vital that the Strategy is closely monitored and reviewed as necessary. Regular monitoring will be undertaken via a report to the Halton Housing Partnership and Environment Policy and Performance Board every twelve months. Should a need for major changes to the Strategy be identified this will be the subject of public and stakeholder consultation.

Housing services play a cross cutting role in meeting Halton's priorities set out in the Sustainable Community Strategy, as demonstrated in the table below.

#### A Healthy Halton

- •Improving housing conditions and energy efficiency
- •Maintaining independence through adapting property

## Employment, learning and skills in Halton

- •Introducing new technologies in energy efficiency projects
- •Apprenticeships and local labour in housing contracts

#### A Safer Halton

- •Removing category 1 hazards within the home
- •Tackling neighbourhood level anti social behaviour

## Children and Young People in Halton

- Reducing overcrowding
- Preventing homelessness

## Environment and Regeneration in Halton

- •Promoting sustainable and mixed tenure neighbourhoods
- •Acting as a driver for investment within Regeneration areas

## Housing issues

The key housing issues which influence this Strategy are examined in detail in the Housing Strategy evidence paper. They can be summarised under three main themes as illustrated below. These themes have influenced the development of our three overarching strategic objectives and the priorities within each of these, as described in more detail in the next section.

# Housing market

- Growing affordability problems
- Reduced access to mortgage availability
- Growing private rented sector

## People

- Ageing population
- Predicted growth in population
- Smaller household size
- Increasing levels of homelessness

- Poorest conditions in private rented sector
  Fuel poverty increasing
  Sizeable proportion of
- Sizeable proportion of underoccupation in social rented stock

## Housing stock

### Our vision, objectives and priorities

#### Our vision for housing in Halton

Halton offers a broad range of good quality housing which meets the needs of existing communities, helps attracts new residents to the Borough and contributes to the creation of sustainable communities.

To help achieve the vision, we have adopted three strategic objectives each containing a set of priorities as detailed below. The Strategy goes on to explain why each of the priorities has been selected, what we hope to achieve and how we plan to achieve it.

#### Strategic objective 1:

To plan for and facilitate housing growth and support economic growth

- Priority 1A: To increase the supply of market and affordable housing through partnership working and support to developers and Registered Providers
- Priority 1B: To support the implementation of the Liverpool City Region Local Investment Plan

#### Strategic objective 2:

To meet the housing and support needs of Halton's communities and promote choice

- Priority 2A: To increase the supply of housing for older people and vulnerable people
- Priority 2B: To review future Gypsy and Traveller pitch provision
- Priority 2C: To prevent homelessness
- Priority 2D: To improve access to social housing and home ownership and promote choice
- Priority 2E: To target access to supported housing to those who need it most

#### Strategic objective 3:

To improve housing conditions and make the best use of the housing stock

- Priority 3A: To complete the regeneration of Castlefields estate
- Priority 3B:To explore the implications of private rented sector growth with a view to improving standards in the sector
- Priority 3C: To improve the energy efficiency of housing and tackle fuel poverty
- Priority 3D: To make the best possible use of the existing housing stock
- Priority 3E: To work with the Director of Public Health to achieve joint health and housing ambitions

## Priority 1A: To increase the supply of market and affordable housing through partnership working and support to developers and Registered Providers
