### 1.0 PURPOSE OF THE REPORT

To provide the Health and Wellbeing Board with the Public Health Annual Report 2019.

### 2.0 RECOMMENDATION: That the Board note the report.

### 3.0 SUPPORTING INFORMATION

3.1 Since 1988 Directors of Public Health (DPH) have been tasked with preparing annual reports - an independent assessment of the health of local populations. The annual report is the DPH's professional statement about the health of local communities, based on sound epidemiological evidence, and interpreted objectively.

3.2 The annual report is an important vehicle by which a DPH can identify key issues, flag problems, report progress and, thereby, serve their local populations. It will also be a key resource to inform local inter-agency action. The annual report remains a key means by which the DPH is accountable to the population they serve.

3.3 The Faculty of Public Health guidelines on DPH Annual Reports list the report aims as the following.

- Contribute to improving the health and well-being of local populations.
- Reduce health inequalities.
- Promote action for better health through measuring progress towards health targets.
- Assist with the planning and monitoring of local programmes and services that impact on health over time.

3.3 The PHAR is the Director of Public Health's independent, expert assessment of the health of the local population. Whilst the views and contributions of local

partners have been taken into account, the assessment and recommendations made in the report are those held by the DPH and do not necessarily reflect the position of the employing and partner organisations.

3.4 Each year a theme is chosen for the PHAR. Therefore it does not encompass every issue of relevance but rather focuses on a particular issue or set of linked issues. These may cover one of the three work streams of public health practice (health improvement, health protection or healthcare public health), an overarching theme, such as health inequalities, or a particular topic such as mental health or cancer.

3.5 For 2018-2019 the Public Health Annual Report is a short film that focusses on Workplace Health. This topic has been chosen to highlight key areas pertinent to the Health and Wellbeing of the working population within the borough. The report will emphasise the measures being taken to both prevent poor health and improve the health of workers and their families.

3.6 The film link is below it covers the following areas:

- What has been happening with workplace health in Halton.
- What impact the work undertaken has had on local businesses and their employees.
