

REPORT TO: Safer Policy and Performance Board

DATE: 9th February 2021

REPORTING OFFICER: Strategic Director – Enterprise, Community and Resources

PORTFOLIO: Community Safety

SUBJECT: Covid19 – Updated working arrangements

WARDS: Borough wide

1.0 PURPOSE OF THE REPORT

1.1 The impact of the Coronavirus is being felt in our communities in many different ways, and will be personal to each individual. This report sets out the range of services that Halton Community Safety Partnership have put in place during the COVID 19 Pandemic to support the community.

2.0 RECOMMENDATION: That

- 1) **the report be noted; and**
- 2) **the Board consider the information presented and raise any questions of interest or points of clarification following the presentation.**

3.0 Introduction

3.1 Safer Halton Partnerships number one objective is helping communities to be and feel safe. During this time, a wide range of services and support continues to be available throughout Halton to respond to concerns about crime, anti-social behaviour and other issues that impact on community safety.

4.0 SUPPORTING INFORMATION

4.1 Community Safety/ASB and Crime/Police

The Constabulary is now shifting between the operational and response phases with regards to COVID-19. This means we that the

Local Policing Unit (LPU) Superintendents are returning to their normal roles.

4.2 Widnes Policing Update

Please see below, a summary of the previous month (including weekend)

- The patrol plan is reduced but focused- the team has also been dealing with a wider range of incidents as life returns to a new normal
- The Police are still actively patrolling in high visibility clothing, engaging, explaining and encouraging and enforcing only as a last resort in relation to Covid breaches
- Also there has been a strong emphasis and extra attention paid to vulnerable victims, especially from the schools officer and beat managers
- There has been a slight increase in crime (10%) - officers are investigating all incidents all but no repeats, patterns or matters for consideration
- There has been a limited amount of - off road bikes issues recently, largely due to the force off road motorbike team that did an excellent job.
- There has been an increase in ASB, a number of those are COVID related

4.3 Runcorn Policing Update

Last week there has been an increase in demand both Covid related and normal business.

- Op Scrambler incidents are up- Daresbury Firs is a hotspot for this. These particular bikes have been responsible for a great deal of ASB recently. The feedback on social media from our posts relating to the seizures, shows how much concern this behaviour causes the majority in our communities.
- Asylum Seekers (AS) - We had just one report stating that large groups were congregating in Preston Brook. Regular patrols have not confirmed this. They have only ever been seen them acting safely and appropriately as they walk from and back to the hotel. Officers are in contact with the Spar and again this week they state they have no issues or concerns. The AS socially distance and are

always courteous and considerate. One male was reported as missing for a few days, who has now been found and returned.

- Reports of Covid breaches are increasing as expected, people are losing patience. The team is still focusing on education and encouragement rather than enforcement.
- Lastly, Runcorn LPU have concluded Operation Winter Warmer. In all over 170 winter hampers were delivered , visited 12 schools and nurseries in Runcorn and PC Panda / Runcorn Staff delivered 190 Christmas bundles that contained selection boxes/ colouring books and pens and a Kops n kids Christmas card.

4.4 Operation Pandas: What is it?

Operation Pandas is the name of the internal major incident response stood up by Cheshire police. It covers the response, management and coordination of all aspects of Coronavirus and its effects on the internal aspects of the Constabulary. It sits side by side to the external multi agency major incident response (LRF) responding to Coronavirus (Operation TALLA) which is run out of the Joint Tactical Command centre (JTCC). These two operations rooms literally sit side by side and work in partnership.

Op Pandas is best described as a hybrid major incident room. It is part major incident command, part major investigation room, part strategic change and projects. It has aspects of all of these and more present and has brought in skill sets as it has stood up to meet the unique challenges that Coronavirus has brought.

Op Pandas command structure has a Gold (Chief Officer) who has oversight.

Op Pandas has a silver commander sitting across the internal and external tactical command and coordination

Op Pandas then has a number of bronze commanders that have responsibility for operation, or functional command aspects and feed into silver.

The operations room has an Operations bronze commander running and coordinating the information and response from all the bronzes, and acting as a hub to problem solve quickly as the incident progresses, or issues are identified.

4.5 School Liaison

The team have been doing home visits in company with a PCSO to students' homes who have not been accessing education and the online

platforms as expected. We offer them assistance with accessing online apps/school website. Update passwords or print out homework and drop off etc.

Its business as usual regarding crimes and outcome.

We have sent out PowerPoints to cover the main areas of concern. E Safety, ASB etc. We have sent out monthly newsletters with current information on. We have also sent out a “We are with you” contact sheet, to support parents.

The team have ordered and received some CCE leaflets to distribute to the schools. These will be up in all schools for the attention of staff and Safeguarding leads.

4.6 Domestic Abuse

Our main concerns are DA/DV as we don't have the usual third party opportunities via schools etc. We are pushing the Open Door multi agency comms, Arriva buses, all retailers, pharmacies and Apex taxis are displaying the posters. Suzi Williams and Jane Tetlow (schools officers) have also done joint visits with staff from Bridge school on those not attending school. Visited on pretext of checking welfare, delivering Easter eggs, but also to reinforce message we are still here and to protect and prevent any harm to those most vulnerable.

Our local DA service has reported a slight increase in DA self-reporting /none-Police referrals this week but this is still lower than usual.

- We are hoping to get Op Enhance back on-line in the next week or so.
- Refuge is full, we have three victims who are in a position to move out and we are supporting them to facilitate these moves, this will free up some space for any new referrals coming through.
- Grange way Court should be online shortly, offering an additional 4 units.
- Cheshire Police held a real time on-line DA Q & A session last week, they were supported by each locality to provide a DA specialist to support this.

4.7 Raising awareness – Domestic Abuse

There are many volunteers working within the community that have not had the opportunity to attend any HBC domestic abuse awareness

training as part of their induction. We recognise the important work that volunteers are doing in many roles supporting the most vulnerable people within our community; as such, they may be the only person an individual may see beyond those they are locked down with. Recognising this as an opportunity to have more reach, HBC developed a quick guide to domestic abuse, with details as to how to reach out for help if any of our volunteers are concerned about someone they are supporting. Adult Safeguarding have reported a slight increase in their referrals relating to domestic abuse, this underlines the important and observant work of carers and volunteers in our community.

4.8 HBC Press Releases

Numerous press releases have been circulated gaining local media attention and radio support, this press release was used by Wire FM as a sound bite.

[COVID-19 and potential impact on those experiencing domestic abuse](#)

[We know that this is a difficult and worrying time for everyone – but particularly so for adults and children living with domestic abuse, and the professionals working hard to support them. For those people experiencing domestic abuse, we want you to know that you are not alone. Our local services are available and can offer you help even if you are unable to leave your home due to COVID-19.](#)

[If you, or a child or any one in your family are in immediate danger you should call 999.](#)

[The Halton Domestic Abuse Service is working together with Halton Borough Council and Cheshire Police to ensure that we maintain essential services, and have contacts for anyone who is affected by domestic abuse or is concerned about domestic abuse and needs to talk to someone during the weeks to come.](#)

[What happens behind closed doors doesn't need to stay there...](#)

[To access free support tips and advice please use this link :
<https://www.openthedoorcheshire.org.uk/>](#)

[If you need to speak to someone for help relating to domestic abuse, please contact your local support service 0300 11 11 247 to speak to the Halton Domestic Abuse Service.](#)

4.9 Weekly Open the door Webchat

Each week across Cheshire, a live webchat session is held where members of the public can log in and ask questions about domestic abuse to local professionals, this gives members of our community the

chance to reach out on a different platform, this is completely new and direct response to Covid-19.

The response has been really positive, questions have been submitted from a range of people including victims past and those still suffering from ex-partners concerned family and friends as well as professionals working in front lines services.

4.10 Local Domestic Abuse Service:

Refuge:

As the Refuge is modelled into self-contained units, we have been able to continue to provide safe accommodation in all 12 of the units available. The Refuge is in full operation, is 'business as usual', and is supporting families to stay safe during this especially testing time. Additional Covid-19 accommodation spaces have been identified however, so far we have not needed to mobilise this to support victims of domestic abuse and their children.

Complex cases:

Those individuals being supported as part of the Complex Case Accommodation Project continue to be supported either within the Refuge or via community support contact and support being regularly undertaken.

Community Support:

The Independent Domestic Violence Advisors are working from home due to Covid 19 and the difficulties meeting victims face-to-face at the moment, they are offering regular telephone/text or email support and safety planning with those victims it is safe to be in contact with. Should an IDVA be unable to contact a victim or if they have safety concerns, Cheshire Police have agreed to visit victims within the community.

4.11 MARAC

Multi-Agency Risk Assessment Conference, it is at this meeting those victims identified as high risk are discussed in greater detail combing what information is known about the victim, the perpetrator, children and other vulnerable adults who share or frequent the address. The Halton MARAC has always been very well attended since its inception around 2005, it has always been a face-to-face meeting. Due to the current restrictions, this meeting has continued to be supported however, virtual meetings have been undertaken with key partner agency representatives calling in and sharing information in order to recognise the risks for that family and develop a personalised action plan to minimise harm. Reports back from colleagues supporting the

MARAC meeting are very positive that the virtual meetings are well supported; the objectives of the meeting are being fulfilled.

4.12 COVID-19 Technological Support

Changing Lives our domestic abuse provider has been supported in achieving additional funding. This new funding will be used to provide local children and families who are socially excluded. At no time has it been more important for children and young people to have access to the internet so they can complete their homework, connect to family and friends and take on-line fitness classes that their peers are accessing. In addition, the equipment will be able to be used by victims who need to access Universal Credit, connect to the outside world and support their mental health too.

4.13 After COVID-19

Research on Savelives website, An Exploratory Investigation: Post-disaster Predictors of Intimate Partner Violence suggests that following COVID-19, we may have a sharp increase in the number of victims and families needing support due to domestic abuse. Both the adult and children service providers in Halton have been supported to submit additional funding bids to the Cheshire Police and Crime Commissioner to increase available resources to provide direct support victims of domestic abuse in both Runcorn and Widnes; the PCC was successful in achieving additional funds from the Ministry of Justice, Halton await the decision of the commissioner.

4.14 Alcohol/Licensing Night time Economy

As the Board will be aware all hospitality venues are currently closed.

We have advised anybody with any questions to contact the Environmental Health Team on 0151 511 5200 or environmental.protection@halton.gov.uk

We have also made ourselves available for advice and support, up to 10pm in the evening and at weekends.

4.15 Enforcement Performance Activity:

This continuing situation has and is causing lots of discussion between the premises in Halton and the main difficulty has been keeping venues and operators updated as much as possible. At the start of this current lockdown we received large numbers of enquiries as to when it may end and unfortunately at the moment we have no idea.

Personal visits have been greatly reduced to protect venues staff and customers but we have however been available till 10pm 7 days a week for help and advice. The Halton Licensing Whats App Group has over 70 members and is monitored virtually 24/7

The vast majority of venues across Halton have acted in a professional and responsible manner many going above and beyond to offer a safe environment for their customers and operating lawfully under difficult situations, when allowed.

In the last few months Licensing and Environmental Health Officers have worked with Operators, Managers, Designated Premises Supervisors and Staff when they were able to open, to ensure that all are up to date with current legislation and with virtual and personal visits ensured that Social Distancing and sanitary measures were correctly implemented and that track and trace systems, whether manual or digital were installed. It was a very difficult and confusing time for venues.

4.16 S 19 Formal and Informal Premises Closure Orders and Premises Issues

Since the last report there have been further issues with a particular venue and it was subsequently closed using a Police closure order. The initial court case was adjourned and as we entered further restrictions, which would keep the venue, closed, it was decided that we could take action by way of an Action Plan. There has since been a meeting of Police, EH, Licensing, the venue management and the brewery and a number of actions were put into place. The venue is currently closed and when re-opening is allowed there will be visits to ensure compliance.

4.17 Licensing Issues

Issues have had few and far between with only a hand full of venues bothering to open during the tier 3 (Restaurant) restrictions and with nobody flouting the current lockdown.

4.18 Licensing Visits

For obvious reasons there have been no partner licensing operations, although individual issues and intel are still being passed between HBC Licensing, Border Force and Cheshire Fire. Officers from all partners are in constant communication and visits will recommence when the situation allows.

4.19 Pub Watch

There have been no further meetings of the group however all the members are on the whats app group and still in full contact with each other.

4.20 ASB Victim and Witness Support Service

The suspension of 'face to face' contact has resulted in contact maintained with service users via telephone, email and text. Where the victim or witness is, 'vulnerable' 'Face Time' contact is also available. Needs assessments and support planning has been conducted over the telephone.

The local policing units at Runcorn and Widnes (Beat Managers, ASB Officers and Inspectors), registered social landlords (ASB Officers and Tenancy Enforcement Officers) and community based organisations have been contacted on a regular basis publicising the service.

This regular contact and the additional stress placed on the community during the period of confinement has seen a marked increase in the number of cases; the figure now stands at **43**. This equates to an increase of 19 since the 7th May 2020.

During the period of restrictions on activity, officers have responded to the needs of victims who have contacted Halton Direct Link. The advice provided ranges from providing the victim with a clear understanding of the difference between reporting nuisance behaviour via 101 and 999. Where there is a threat of harm or damage to property 999 is appropriate with the realistic expectation of police officers being dispatched to the location. For other incidents/nuisance, behaviour without the risk of harm a victim would dial 101.

Regular contact takes place with the appropriate staff at the local policing units and with social landlords to ensure victims are supported and relevant advice, intelligence is passed on appropriately. In keeping with this service delivery standard, the use of **Community Protection Notices are being encouraged**, which are designed to address the types of behaviours that have become prevalent since the restrictions were imposed. (Community Protection Notices are for behaviour **that has a detrimental effect on the quality of life of those in the community, is persistent and is unreasonable including on private land for people aged 16 and above** as per the Anti-Social Behaviour, Crime and Policing Act 2014)

A breach of a Community Protection Notice is a criminal offence and can be the platform for other orders such Criminal Behaviour Order to be pursued.

Two **Multi-Agency Consultation Meetings have taken place** to discuss the viability of pursuing (Civil Injunctions and Community Behaviour Orders for example) when the behaviour of an individual comprises their safety and wellbeing and the health and safety of the wider community.

Summary

The absence of face-to-face contact and the reliance on other forms of communication has not impaired the ability of the ASB Victim and Witness Support Service to provide the three distinct levels of support to victims and witnesses of nuisance behaviour, whilst ensuring service delivery/quality standards have been maintained. This period of adjustment has resulted in me becoming adept in the use of Skype as a meeting/conferencing tool.

4.21 The challenges for Counter Terrorism and Channel Policing during lockdown:

Chief Supt Nik Adams, Vice-chair of the CT Advisory Network and National Co-ordinator for Prevent recently spoke to The Independent newspaper about the challenges for CT Policing during lockdown. He explained that CT Policing has been working tirelessly to prepare for and manage the impact of COVID-19.

Across the country, Prevent colleagues have developed new ways of working focussed on three priorities:

- We have changed the way we work to cope with reduced access to multi-agency support and face to face mentoring. Channel panels, the multi-agency panels that support those who are at greatest risk of radicalisation, are now being held virtually to ensure that we continue to work together to understand and meet the needs of the client.
- We have developed a national communications campaign to mitigate the reduction in referrals from partners, (particularly schools, where teachers are often the first to notice behavioural changes). We are sharing information with families about radicalisation risks and the work of Prevent to build the trust, confidence and knowledge needed to help people to share their concerns. More than ever, families are

most likely to spot concerns and we need to be ready to help. Advice is available to families through The Let's Talk About It website.

- We are focussed on managing all cases effectively, paying particular attention to those where isolation could increase vulnerability. We are adapting our approach as we identify new risks.

Our lives changed suddenly in March, and that had a profound impact on many areas of safeguarding. We will stay safe by looking out for each other and knowing how to reach out for support. We are still here and we stand ready to help.

4.22 Digital safety during Covid-19:

The impact of COVID-19 means that most of us will be at home for an extended period and are likely to be spending large amounts of time online. Extremists are using the outbreak to promote hateful views, conspiracy theories blaming a particular group for the virus and to spread misinformation regarding these groups.

A better understanding of digital safety will help professionals, carers and parents safeguard vulnerable individuals from a range of harms, whether that is child sexual exploitation, fraud, or extremist influences seeking to radicalise and exploit vulnerable people. The Government has encouraged Internet Service Providers to allow parents to easily filter content to put you in control of what your child can see online. The UK Safer Internet Centre provides guidance on how to do this and Internet Matters also provide step by step guides on how to setup parental controls.

Behaviour and vulnerabilities may be changing due to the unusual circumstances we are now living in. The signs that something may not be right are many and varied and could be an indication that harmful influencers are seeking to exploit vulnerable individuals. You may know that person and you may feel able and want to speak with them, ask them about what they are viewing, who they are speaking to and how they are feeling.

If you suspect someone is being exploited online: There are a number of resources available to help you understand and protect your vulnerable individuals from different harms online. A selection of which are included here:

[Let's Talk About It](#): Working together to prevent terrorism, online safety advice

[Educate Against Hate](#): DFE resources about hate and extremism for teachers and parents

[Educate Against Hate Parents' Hub](#): Advice for guardians to keep young people safe from extremism

[Think you know](#): Activities for all age groups to build resilience and awareness online

[Online safety](#): NSPCC - details the key issues faced by young people online.

5.0 POLICY IMPLICATIONS

- 5.1 The policy implications of the review relate primarily to the Safer Halton priority. However this is a cross cutting work area which has wider implications on other areas of council business.

6.0 FINANCIAL IMPLICATIONS

- 6.1 None

7.0 IMPLICATIONS FOR THE COUNCIL'S PRIORITIES

7.1 Children and Young People in Halton

The Community Safety Service as a universal service impacts on the health, safety and well-being of young people.

7.2 Employment, Learning and Skills in Halton

None

7.3 A Healthy Halton

The Community Safety Service as a universal service impacts on the Health, safety and well-being of the residents of Halton.

7.4 A Safer Halton

The Community Safety Service as a universal service impacts on the Health, safety and well-being of the residents of Halton.

7.5 Halton's Urban Renewal

None

8.0 RISK ANALYSIS

None

9.0 EQUALITY AND DIVERSITY ISSUES

None

10.0 LIST OF BACKGROUND PAPERS UNDER SECTION 100D OF THE LOCAL GOVERNMENT ACT 1972

10.1 There are no background papers under the meaning of the Act.
