This was required in order to provide sufficient time to develop and implement the three-year Transformation Programme, which is intended to bring Council spending back in line with budget by 2025/26. This creates a significant risk for the Council; therefore, a robust process has been being established to ensure the Transformation Programme will deliver sufficient, permanent cost reductions over the three-year period • Governance arrangements for the Transformation Programme are being led by the Executive Board, with regular briefings for the Scrutiny Chairs Group and all Members • Effective business planning is undertaken to ensure that appropriate resources are directed towards the Councils key strategic priorities. • Budget setting is aligned to the annual business planning cycle in order to ensure that the value of financial resources is maximised • A budget risk register is maintained which works in conjunction with the budget setting cycle to ensure that emerging budget risks are identified together with relevant mitigating measures

Scoring Mechanism

Once the business risks are identified and analysed, they are scored by multiplying the impact and likelihood. They will then establish a final score (or significance rating) for that risk:

See below.

IM	1	2	3	4	5
	H IMPROB	IMPROB	POSS	PROB	H PROB

LIKELIHOOD

Those that have been placed in the red boxes are the primary or **Top Risks** followed by lower risks leading to **improbable** risks

Measures to control the risks are identified from the following options;

1. Reducing the likelihood; or
2. Reducing the impact; or
3. Changing the consequences of the risks by,
 - Avoidance
 - Reduction
 - Retention
 - Transference; or

4. Devising Contingencies, i.e. Business Continuity Planning

The risks are scored again to establish the effects the measures have once implemented on reducing the risks and identify a score rating for residual risks.
