**Categories:** Alan

Thank you for the consultation regarding the above planning application.

I have reviewed the proposals and provide comments for SP Energy Networks who operate and manage the electricity network up to 132kV on behalf of the licenced network operator, SP Manweb, for the area including the application site. In general, SP Energy Networks has no objection to the proposed development shown on the proposed layout plan subject to required measures to protect SP Manweb network assets and ensure safe working around the affected network.

The applicant must be made aware of the need to work safely around these assets or to divert them where necessary. There would need to be safe working during construction and post construction and unfettered long term access maintained. Guidance on this matter can also be found here <https://www.hse.gov.uk/pubns/priced/hsg47.pdf> and <https://www.hse.gov.uk/pubns/gs6.pdf> .

The applicant should be advised of this in an informative added to any consent and also prior to starting work on site to contact the SP Energy Networks to discuss diverting the directly affected assets <https://www.spenergynetworks.co.uk/pages/diversion.aspx> .

Regards  
Steve
