### **3.0 SUPPORTING INFORMATION**

#### **Revenue Spending**

- 3.1 Appendix 1 presents a summary of spending against the operational revenue budget up to 31 January 2025 and Appendix 2 provides detailed figures for each individual Department. In overall terms, net Council spending as at 31 January 2025 is £15.487m over budget. The outturn forecast for the year estimates that net spending will be over budget by £18.906m if no corrective action is taken.
- 3.2 The forecast outturn overspend has improved by £1.851m from the amount reported on 16 January 2025. Whilst the financial position for the

year remains deeply concerning the forecast outturn is a significant improvement. The improvement largely relates to reduced net spend estimates across Children Services. Further information regarding significant departmental variances is included within the report and departmental figures are included in Appendices 1 and 2.

- 3.3 Over the two month period since the last reported position, financial focus workshops led by the Chief Executive have taken place with each Directorate's senior leadership team on a monthly basis. These workshops are looking for urgent ways to reduce or stop spending, or generate income. The aim is that initiatives identified in these workshops will help reduce the overall forecast overspend position for the year.
- 3.4 Ordinarily, where net spend is exceeding available resources for the year, the Council would have used reserves to achieve a balanced position. Due to decreasing levels, the Council are not in a position to cover the forecast overspend for the year. Therefore, on 04 December 2024 Council approved an application to the Ministry of Housing, Communities & Local Government (MHCLG) for Exceptional Financial Support (EFS). The Government's EFS arrangement provides councils with exceptional permission to capitalise annual revenue costs and fund them from long term borrowing (over 20 years) from the Public Works Loans Board (PWLb). EFS provides permission to borrow and does not provide grant funding. On 20 February 2025 MHCLG confirmed the Deputy Prime Minister is minded to approve a capitalisation direction of a total not exceeding £52.8 million over the period 2024/25 and 2025/26. The position will only be confirmed following an external assurance review to be undertaken in the summer of 2025.
- 3.5 The Council's available useable reserves (general and earmarked) total £11.484m. This is well below that required to help provide a balanced budget position given the forecast outturn overspend. Further detail on reserves is provided at paragraph 3.19.
- 3.6 The forecast outturn figures reflect a prudent yet realistic view of spend and income levels through to the end of the year. Work will continue to update the financial position as more information becomes available. Included within the forecast position is the 2024/25 pay award which was paid in November 2024.
- 3.7 The largest pressure on the Council's budget continues to be within the Children & Families Department and the Adults Directorate. Against Children & Families net spend for the year is forecast to be £6.817m (16.2%) above 2023/24 actual spend. Against the Adults Directorate net spend for the year is forecast to be £4.557m (7.5%) higher than 2023/24 actual spend.
- 3.8 On 24 October 2024 the Board approved additional revenue funding of £4.2m per year, to help develop a programme around the stabilisation and redesign of Children's Social Care, following the Ofsted review. This investment is focused upon proactive early intervention and prevention systems. It is envisaged that this investment will help control and reduce

costs within Children's Social Care over the next few years, and these cost reductions will be built into future year budget targets.

- 3.9 The use and cost of agency staff continues to be one of the main contributing factors to the overspend position for the year. This is mostly evident within the Children & Families Department and the Council's in-house Care Homes. Initiatives and support from the Transformation Programme are ongoing to reduce reliance upon agency staff.
- 3.10 Analysis of agency spend for the year, together with comparative analysis of 2023/24 costs, is included in the table below. Note information for Q4 only includes data for one months, January.

	2024/25					2023/24

- 3.11 Within the approved budget for the year is a £4m savings target against the Transformation Programme. To date budget savings of £0.129m have been identified against this target. In addition, the Transformation Delivery Unit (TDU) have identified cost reductions and cost avoidance measures, although these will not lead to an overall reduction in the budgeted target. Progress against transformation savings is reported monthly to the Transformation Programme Board.
- 3.12 The forecast overspend is significantly above that which has been recorded in recent years. Whilst the current year net budget for the Council has increased by £7.7m (5.45%), this is well below the forecast increase in net costs, currently estimated as an increase of £20.997m (14.1%).

## Revenue - Operational Spending

- 3.13 Operational net spending for the first ten months of the year is higher than the budget to date by £15.487m Based on current forecasts it is estimated net spend will be over budget for the year by £18.906m if no further corrective action is taken.
- 3.14 Within the overall budget forecast position for the quarter, the key budget variances are as follows;

- (i) **Children and Families Department**

The overall estimated forecast overspend position at the end of 2024/25 has reduced by £1.616m since last reported at 30 November 2024.

Significant investment as part of a Children's Social Care improvement plan has helped to reduce the forecast overspend position as well as reductions in agency and placement costs.

Although that there is a reduction in estimated forecast overspend across the Children's and Families department the overspend is still an area of serious concern and the issues remain the same. The difficulty in the recruitment of social workers and the subsequent extortionate agency costs, along with the spiralling costs of residential placements. This has been an ongoing problem for a number of years.

### Employee Expenditure

Employee costs are forecast to be over budget profile at the end of financial year 2024/25 by £1.994m this is a reduction of £0.624m based on information available at 31 January 2025.

The reduction mainly relates to an agreed investment within children's services which has resulted in the establishment of new roles across the department. Agency staff that were previously in addition to the establishment (IATE) are no longer considered as IATE. Additional in-year budget of £0.501m (funded from contingency) has been provided for some of the newly established posts which has helped reduce the overspend position.

The chart below demonstrates agency cost that cover the month of April to January based on the period that was worked, the number of agency members of staff that the Council have received an invoice for within each period, the number of vacancies across the department and the number of staff that are currently in addition to the establishment (IATE).

Various workstreams are in place to target the difficulties in recruitment, including a recruitment work group, social work academy and market supplements for applicable posts.

The chart above shows the level of agency has consistently reduced since October this is due to a number of agency converting to vacant positions and external recruitment which has resulted agency staff being stepped down.

### Fostering

Inhouse fostering placements is estimated to be £0.348m under budget profile for financial year 2024/25. Inhouse fostering budgets were increased to support the budget pressure in this area.

Work continues to recruit and retain Halton's In-house foster carers, along with training to develop carers enabling them to accommodate more specialist placements. This therefore means that costs could increase. However, the ability to accommodate young people within in-house provision provides a substantial saving in comparison to Independent Fostering Agency (IFA) or residential care.

Increasing numbers of children in care and insufficient in-house fostering provision has meant increased reliance on IFA. Higher numbers of children placed within IFA provision and increased IFA rates has resulted in an estimated forecast overspend for the end of 2024/25 as £0.886m.

### Residential Care

Out of Borough Residential Care continues to be the main budget pressure for the Children and Families Department as the costs of residential care have continued to rise year on year. The numbers of young people in residential placements remains high and the cost of placements is rising significantly year-on year.

Provision	Weekly Costs	31-Jan-25		30-Nov-24	
		No. Placed	Estimated cost for the year	No. Placed	Estimated cost for the year
Residential	£1000 - £3000	4	488,662	4	476,360
Residential	£3001 - £5000	27	5,108,252	25	4,956,870
Residential	£5001 - £7000	26	6,737,694	26	7,413,389
Residential	£7001 - £15982	16	9,452,930	17	9,291,964
Secure	£6397 - £8137				
Leaving Care	£443 - £7175	11	2,134,843	14	2,341,056
Parent & Child	£2000 - £5500	7	774,025	7	913,562
<b>Total:</b>		<b>91</b>	<b>24,696,405</b>	<b>93</b>	<b>25,393,201</b>

At the end of financial year 24/25 the estimated overspend is £6.410M over budget for residential placements this has reduced by £0.784m since last reported.

Overall cost of packages are increasing due to the complexity of support the young people require as well as standard package cost increases. This is a national issue and market factors such as low supply and high demand have resulted in the costs of residential care packages rising significantly over the last year, meaning that the level of spend is unsustainable at the current rate.

A number of initiatives are taking place to try and address the issue including a High Cost Placement Panel where high cost packages are individually scrutinized to ensure the placement is

right for the young person and at the best available cost for the placement.

The graph below illustrates the rising costs of residential care, for consistency this does not include the costs of Unaccompanied Asylum-Seeking Children (UASC) as these costs were not included previous years.

## (ii) Adult Social Care Directorate

### Community Care

At the end of January 2025 expenditure on Community Care services is over budget profile by £2.679m. It is anticipated that at the end of the financial year it will be overspent by £3.527m. This is an increase of £0.585m from the previous position reported at the end of November 2024.

### Residential & Nursing Care

There are currently 447 residents in permanent external residential/nursing care as at the end of January 2025 compared to 444 in November, an increase of 0.6%. Compared to the 2023/24 average of 391 this is an increase of 14.3%. The average cost of a package of care in the current year for the same period has increased from £873.48 to £902.99 an increase of 3.3%. Based on this average cost, the 3 additional service users from November to January will cost approximately £0.032m to year end. In addition there is an increase in supplementary invoices during this period, amounting to £0.223m.

The graph below illustrates the demand for permanent placements.

Additional 1:1 hours in care homes currently cost the Council £0.023m per week. Spend to date is £0.596m for 30 individuals (27,432hrs), the forecast to year end is circa £0.803m.

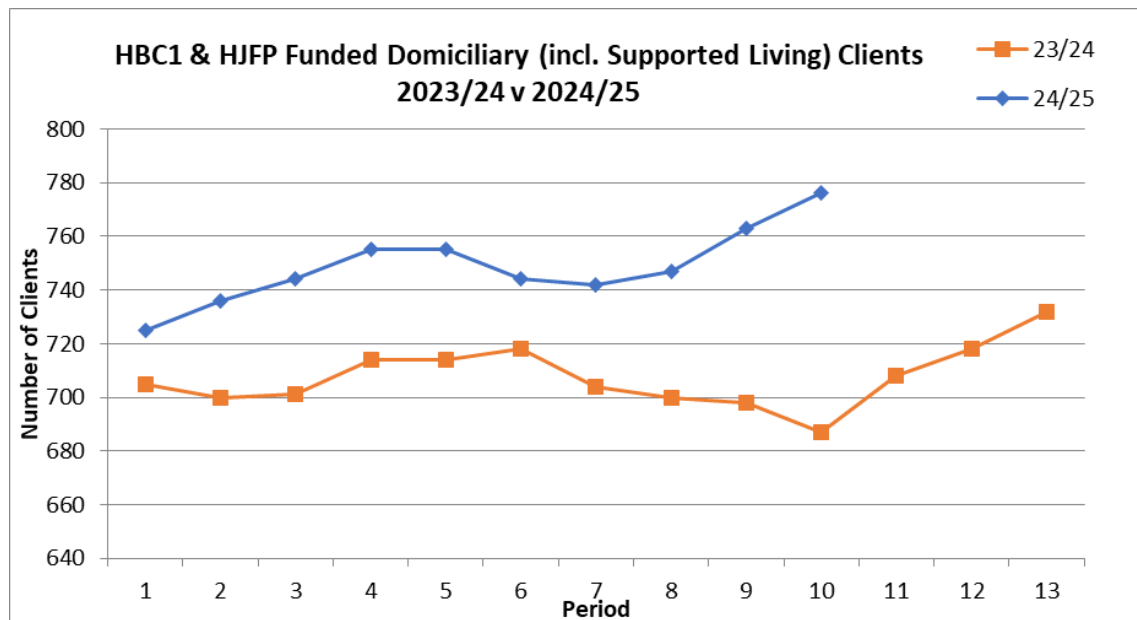

There are 76 care homes charging an additional payment over and above the contracted framework bed price. The current cost of additional payments is £0.012m per week, circa £0.610m per annum.

#### Domiciliary Care & Supported Living

There are currently 776 service users receiving a package of care at home compared to 747 in November, an increase of 29 (3.8%). However, the average number of service users during 2023/24 was 707, so there has been an increase of 9.8% demonstrating that demand for the service has increased this financial year.

The average cost of a package of care has increased by 5.3% from £450.89 to £475.14.

The graph below illustrates the demand for the service from April 2023 to date.

### Direct Payments

In January 604 clients received a Direct Payment (DP) compared with 608 in November, a decrease of 0.6%. However, the average number of DP's in 2023/24 was 591, therefore there has been an increase of 2.2% on last year's average.

The average cost of a package of care has decreased since November from £471.94 to £438.54 in January, a reduction of 7.1%.

The forecast position for Direct Payments assumes an amount of £1.6m will be recovered from service users following an audit to seek assurance the DP is spent in line with their care and support needs. Variations to the amount recovered will directly affect the forecast.

### **Care Homes**

The spend to 31 January 2025 across the Division is over budget profile by £1.020m. The forecast for the end of 2024/25 financial year is an estimated outturn position of £1.159m over budget. This is assuming the level of agency staffing continues at a similar rate and includes higher spend assumptions later in the financial year due to winter pressures surrounding staffing and utilities.

Recruitment of staff is a continued pressure across the care homes, where there remains a high number of staff vacancies. A proactive rolling recruitment exercise is ongoing, supported by HR.

Due to pressures with recruitment and retention in the sector, heavy reliance is being placed on overtime and expensive agency staff to support the care homes. At the end of January 2025 total agency spend across the care homes reached £3.034m, the cost of which has partially been offset by staff vacancies.

### **(iii) Education, Inclusion and Provision**

Schools Transport is the main budget pressure for the Education, Inclusion and Provision Department. The Council has a statutory responsibility to provide Special Educational Needs (SEN) pupils with transport. This is split into two main areas of SEN pupils attending In-Borough and Out-of-Borough Schools.

The table below illustrates the split between the two areas, and how each areas spend compares to the budget.

<b>2024-25 as at Jan-25</b>					
<b>Area</b>	<b>Number of Users</b>	<b>Budget £000</b>	<b>Projected Spend £000</b>	<b>Variance £000</b>	<b>Average Cost per User</b>
In Borough	482	1826	1812	14	£3,759.16
Out of Borough	142	491	1343	(852)	£9,459.70
<b>Total</b>	<b>624</b>	<b>2317</b>	<b>3155</b>	<b>(838)</b>	

The current records show 624 service users, the majority of which attend schools within the Borough. The Out of Borough overspend has increased from the previous reporting period from £0.797m to £0.852m.

During the current Academic year, it is anticipated that these figures will continue to rise, based upon historic information. The demand for the School Transport Service continues to increase in line with the increasing number of pupils with SEN within the Borough.

The graphs below show the trend in the number of SEN children using this service and the associated costs.

A further pressure on the departmental budget for the year relates to Psychology and SEN Assessment services provided to schools. For a number of years these costs have been funded by the Dedicated Schools Grant (DSG). The Department for Education have recently advised that these costs cannot be DSG funded as

they are outside of scope in meeting the grant conditions. It is therefore currently assumed this cost will fall upon the Council's budget at a cost of £0.860m, until at such time other sources of funding are found.

Income figures have changed compared to previous reports due to a review of departmental earmarked reserves and £0.420m being released to the General Fund.

**(iv) ICT Department**

At the end of the 2024/25 financial year it is forecasted that the ICT and Administration Department will be over the approved budget profile by £0.596m.

The main pressures faced by the ICT and Administration Department is in relation to the IT infrastructure, with the move to Microsoft 365, staff have been able to utilise much more efficient hardware. However, the software utilised by the new hardware is at a premium and will be a continuous pressure the Council will need to react to as prices fluctuate.

**(v) Community and Greenspaces Department**

The net departmental expenditure is forecast to be £0.819m under budget at the end of the 2024/25 financial year. This is an improved position from the expected £0.616m forecasted at the end of November 2024.

The largest contributor to the underspend is in relation to spend on Employees, which is currently forecast to be £0.951m under the approved budget profile by the end of the financial year. There are several restructures taking place across the Department, therefore, in order to facilitate these a number of posts are currently being held vacant until the new structure is implemented. The most notable of these being the new structure being implemented when the new Halton Leisure Centre opens.

**Collection Fund**

- 3.15 The council tax collection rate through to the end of January 2025 is 89.01% which is 0.08% lower than the collection rate at the same point last year.

Debt relating to previous years continues to be collected, and the Council utilises powers through charging orders and attachment to earnings/benefits to secure debts. £2.205m (12.52%) has so far been collected this year in relation to previous years' debt.

- 3.16 Business rate collection through to the end of November 2024 is 92.70% which is 3.21% higher than the collection rate at the same point last year.

£2.057m has so far been collected this year in relation to previous years' debt.

### Review of Reserves

- 3.17 As at 31 January 2025 the Council's General Reserve is unchanged from the previous period at £5.149m, which represents 3.44% of the Council's 2024/25 net budget. This is considered to be a minimum level.
- 3.18 There is a regular review of earmarked reserves undertaken to determine whether they can be released in part or in full to assist with funding the Council's current financial challenges, recognising that this only provides one-year funding solutions.

### Reserves Summary

- 3.19 A summary breakdown of the Council's reserves is presented in the table below, showing the balance of reserves as at 31 January 2025.

Summary of General and Earmarked Reserves	
Reserve	Reserve Value £m
<b>Corporate:</b>

Various Other	0.767
<b>Total Earmarked Reserves</b>	<b>52.753</b>

- 3.20 Held within the Transformation Reserve is £6.355m, set aside to help fund future balanced budgets, fund overspends, and meet a range of

potential spending commitments in future years associated with delivering the Transformation Programme.

- 3.21 The above table shows the diminishing level of reserves available to assist with funding any future budget overspends and balancing future budgets. Only the £11.484m of the General Fund and Transformation Reserve could now be used for these purposes, as all remaining reserves are committed for specific purposes. Use of these reserves will help contribute towards reducing the Council's overall forecast overspend position and mitigate against the level of Exceptional Financial Support required.

### **Capital Spending**

- 3.22 Council approved the 2024/25 Capital Programme on 6 March 2024. Since then the capital programme has been revised to reflect a number of changes in spending profiles and funding as schemes have developed. Included in the list below is a number of schemes which have been revised where profiles have been moved forward to 2025/26. Appendix 3 brings all the separate elements together and report on the Council's total planned capital programme expenditure over the next three years. The schemes which have been revised within the programme are as follows:

- I. Basic Need Projects
- II. SEND capital allocation
- III. SCA unallocated
- IV. Childcare Expansion
- V. Stair Lifts
- VI. Joint Funding RSL Adaptations
- VII. Madeline McKenna Refurbishment
- VIII. St Lukes Care Home
- IX. St Patricks Care Home
- X. Foundary Lane Residential Area
- XI. Sci-tech Daresbury Project Violet
- XII. Port of Weston
- XIII. Street Lighting - Structural Maintenance
- XIV. Street Lighting – Upgrades
- XV. Risk Management
- XVI. Fleet Replacements
- XVII. Mersey Gateway Handback Land
- XVIII. Halton Smart Microgrid

- 3.23 Capital spending at 31 January 2025 totalled £33.9m, which represents 66.9% of the total revised Capital Programme of £50.7m (which assumes a 20% slippage between years).

### **Approved Savings**

- 3.24 On 02 February 2023, Council approved savings proposals against the budget for the three year period 01 April 2023 to 31 March 2026. Appendix 4 lists those savings covering 2024/25 and 2025/26, together

with RAG rated information on progress to date with developing and implementing the target savings.

#### **4.0 CONCLUSIONS**

- 4.1 As at 31 January 2025, net revenue spend is forecast to be £18.906m over the budget for the year.
- 4.2 It is clear that Council reserves alone will not be sufficient to fund this pressure. As a result of this position and future budget challenges, the Council has successfully applied to Government for Exceptional Financial Support (EFS).
- 4.3 Departments should continue to ensure that all spending continues to be restricted throughout the remainder of the year, to ensure that the forecast outturn overspend is minimised as far as possible and future spending is brought in line with budget. This will assist with minimising the ongoing cost of EFS borrowing.
