3. Capacity and Demand

A full capacity and demand planning document has been shared on the Better Care Exchange, please check this document before submitting any questions on capacity and demand planning to your BCM. Below is the basic guidance for completing this section of the template.

This template follows the same format as last year and so contains all the previously asked for data points including demand (referrals), block and spot capacity, average duration of treatment and time from referral to treat all split by pathway. It is however only required that some form of data points are submitted to show projected demand (disaggregated by step-up and step-down) and capacity for intermediate care and other short term care. The additiona data points on average treatment time, time to treat and spot/block capacity split are optional but have remained in case you may find these data points useful.

As with the last capacity and demand update, summary tables have been included at the top of both capacity and demand sheets that will auto-fill as you complete the template, providing and at-a-glance summary of the detail below.

List of data points in template:

3.1 C&D Step-down

Estimates of available capacity for each month of the year for each pathway.

Estimated average time between referral and commencement of service.

Expected discharges per pathway for each month, broken down by referral source.

Estimates of the average length of stay/number of contact hours for individuals on each of the discharge pathways.

3.2 C&D Step-up

Estimated capacity and demand per month for each service type.

Estimated average length of stay/number of contact hours for individuals in each service type for the whole year.
